Explanation of Fees and Levies

School Fees Based on recommendations as made by Brisbane Catholic Education, School Fees assist in covering costs associated with the everyday operations and running costs of the school. In addition, they cover the Archdiocesan Education Levy paid to the Brisbane Archdiocese by all BCE schools. Together with government funding, School Fees provide for staffing and the functioning of all BCE schools, offices and service centres.

Capital Levy This levy is NOT tax deductible. It is a compulsory levy used to assist the school in financing loans associated with our building programs. It also covers regular maintenance and upkeep of all our school facilities.

Technology Levy Covers the cost of technology hardware and associated resources and contributes to maintenance and school infrastructure costs.

F.A.C.E Levy (Family and Community Engagement) This levy ensures that there is an equitable contribution from all families to the activities provided by F.A.C.E. In support of our school. Combined with monies raised through fundraising events, it finances initiatives that aid the development of facilities and resources of the school.

Student Levy Covers the cost of student activities such as excursions/incursions, swimming, dance, sport etc., including transport & incidental costs. It also covers teaching resources and printing/photocopying costs.

Resource Levy Covers student resources eg. workbooks, stationery, paper, craft etc. and all classroom consumables.
